1973Adi

I didn't make it clear that I expected players to submit Fall 02 moves. In any case, one player has requested a delay in order to see the retreats for planning purposes, which I grant. I have Fall moves from everyone except Wood ; these may be changed before the deadline. My thanks to Rick Brooks and John Cleaveland for standby moves.

The unit in Kie is a fleet, not an army.

Some of you people are being careless with your move orders. Deadline for Fall 1902 orders is May 24 at noon at 423 North Main, Bellevue, Mich. 49021.

4000 AD

Some of you are making it difficult for me (like not listing home system), but everyone submitted Fall moves so we can get a year out of the way. I have tentatively decided not to announce alliance unless such announcement is needed to explain action in the game. I will notify the parties named in the alliance, however. Does anyone think this should be handled differently?
